

Invitation to attend

On behalf of the Malta Resuscitation Council, (MRC), I would like to invite you to a one day symposium which will focus on the new international 2005 Resuscitation guidelines.

The MRC is committed to promote the latest guidelines on Resuscitation in Malta. Since its formation and subsequent affiliation with the European Resuscitation Council (ERC) in February 2005, the MRC has endeavored to keep itself updated and to devise methods to spread the latest news in this science. The revised Resuscitation guidelines were published for the first time in late November 2005 and the Symposium aims to explain the science behind these changes.

The list of speakers boasts a team of local experts and Dr. Anthony Handley, a world renown speaker in Resuscitation and Chairperson of the ERC Adult Basic Life Support and AED sub-committee. We have prepared an interesting programme which will appeal to medical and paramedical professionals keen to keep updated in the field of Resuscitation. Participants will also have the opportunity to visit a Pharmaceutical exhibition.

Finally I would like to thank all the sponsors and helpers. As in previous similar events the turnout of delegates is expected to be high and seats are limited. So book early and do not miss out on this opportunity.

**Mary Rose Cassar,
Vice-Chairperson MRC & Convener of Symposium**

List of Speakers

Dr.Simon Attard Montalto
MBChB, MD(L'pool),FRCP, FRCPCH, DCH

Dr. Robert Camilleri
